Soothes muscly pain
Containing Actual Tripeptide
Non-color type

Deep relief gel contains MSM, Glucosamine & Binterin™, which work together to quickly relieve stress and soothe your body.

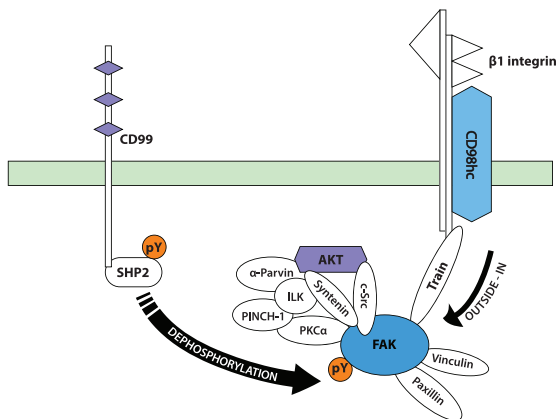

WHAT'S BINTERINE™?

Binterine is one of SE-Tripeptide which is a brand for variety of high performance tripeptides developed by SupadElixir Co.Ltd.,

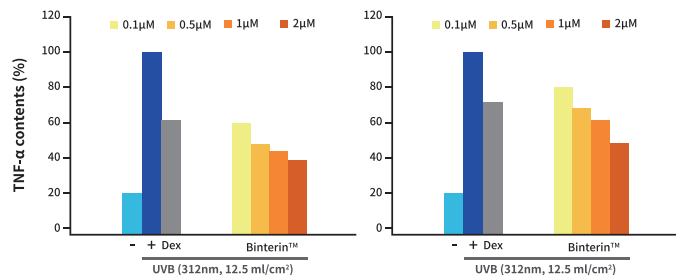

SCIENTIFIC FACTS ABOUT BINTERINE™

Binterine is CD99-derived tripeptide inhibits the proinflammatory cytokines, TNF α or IL-1 β . – excellent soothing.

Binterine has High skin absorption/penetration rates of over 70 %, in vitro Franz diffusion transdermal permeation test.

Suppression of expression of TNF-alpha (A) or IL-1beta (B)

Inflammatory cytokines, TNF- α and IL-1 β induced various inflammatory responses, leading to upregulation of bFGF, MMP-9, IL-1 β , and TNF- α . Binterin suppressed the expression of TNF- α and IL-1 β induced by UVB.

HOW TO USE?

Whenever needed to relieve and soothe your body, topically apply enough and massage the gel gently.
Do not apply around the eye area.
Applying gel 2-3 times in a day helps to ease your pain quickly
